## True Wireless Battery-Powered PIR Series for Direct Panel Integration

The **WFX-360** series is a 360° wireless ceiling mount PIR that provides up to 40ft diameter detection range in a sleek and compact design that suits all types of installation applications.

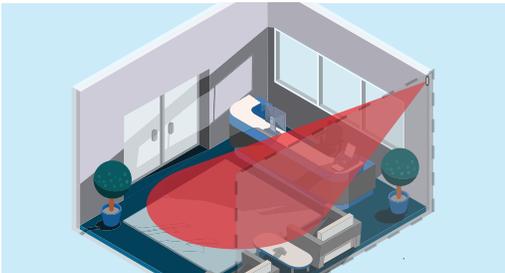

The **WNX-40** series is a 40ft x 40ft wall mount PIR with excellent tolerance to spot temperature changes from movements of blinds, curtains, and nuisance animals.

With up to 7 years of battery life and built-in transmitters compatible with Honeywell® 5800, DSC® 433MHz, 2GIG®, Interlogix® and QOLSYS® wireless systems\*, the WFX and WNX are ideal for retail, business, industrial, and residential applications.

## WFX-360 series

- OPTEX engineered hard spherical lens for stable & accurate detection
- False alarm protection against environmental/temperature changes
- Designed to be mounted in rooms between 8' to 12' high
- LED on/off switch & sensitivity adjustments
- Transmitter and battery included

## WNX-40 series

- Patented Multi-Focus Optics for accurate detection
- Extremely high false alarm protection
- Optional long-range FL-60N lens available (60' x 6' range)
- FA-3 wall & ceiling mounting bracket available
- Transmitter and battery included
- Small animal tolerant (up to 16 inches/40cm in height)
- LED on/off switch & sensitivity adjustments
